

We are Fairtex

Fabric manufacturing specialists

About us

- With a rich history spanning over 50 years, Fairtex Fashion India Private Limited (FFIPL) stands as a dedicated player in the textile and fashion fabric industry. Founded in 1965 and headquartered in Ichalkaranji, our unique business model features an in-house manufacturing division that operates on a distinctive approach. Through the seamless integration of sophisticated amenities and advanced scientific, technological, organizational, and operational frameworks, we have perfected our manufacturing process.
- At FFIPL, our marketing plan revolves around our unwavering commitment to cutting-edge research and development, as well as the utilization of natural and sustainable materials. Our consistent investments in cutting-edge machinery have enabled us to offer an impressive range of textiles. We prioritize reliable and timely delivery, guaranteeing that our clients' precise needs are met exactly when they need it. This dedication to delivering consistently high-quality products has earned us the trust and loyalty of our valued clientele.
- What truly sets us apart and ensures our continued success is our expertise, receptiveness to learning, and innovative problem-solving. We foster a culture of teamwork, professionalism, and personal responsibility among our employees, resulting in effective productivity. Adapting our operations to meet consumer demands for superior products is a key driver of our company's future success.
- Join us on this extraordinary journey of quality, innovation, and sustainability. Choose Fairtex Fashion India Private Limited for an unparalleled experience in the textile industry. Let us bring your textile visions to life.

Vision

Our vision at Fairtex Fashion India Private Limited is to be a globally recognized leader in the textile and fashion industry, known for our innovation, superior quality, and ethical practices.

Mission

To provide exceptional textile solutions, deliver superior quality products, and foster long-term partnerships with our clients, all while promoting sustainability and driving innovation in the industry.

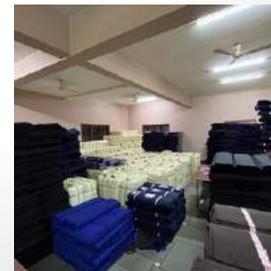

Infrastructure

At FF IPL, our state-of-the-art infrastructure enables us to meet dynamic market demands. **With 60,000+ sq. ft.** of controlled humidificated plants and fogging systems, we weave diverse fibers and densities with precision.

Research and Development Excellence: Our research and development excellence ensures superior quality. From inception to execution, our cutting-edge infrastructure supports all design stages, keeping us at the forefront of the industry.

- **Manufacturing Unit Par Excellence:** Equipped with advanced machinery, our manufacturing unit delivers top-notch greige fabric. Our factory showcases our commitment to excellence, catering to global and domestic clients.
- **Plc sizing unit:-** We also have 2 in house PLC Sizing industries with the latest technologies which helps the yarn to run on the highest speed of our Airjet machineries.
- **Toyota JAT810 Equipment:** We boast more than 42 pieces of Toyota JAT 810 machineries, featuring 8-16 shafts, 2-4 feeders, and a speed of 1100 RPM with Dobby and Jacquard selvedge. These cutting-edge tools come with unique Toyota components, including the energy-saving, air-saving mechanism and the innovative “E-shed” electronic shedding motion. With added convenience through function panels and a factory management system, our equipment ensures seamless operation and enhanced productivity.
- **Warehouse:** We maintain a well organized stock yard to keep a watch on all our fabrics, where all the sampling and packaging of goods are done alongside with our specialized inspection team in order to ensure that we deliver the best quality fabrics to our consumers.

Our Products
